

AUBSU No-Meat Meetings Policy

Due to the increased environmental impact caused by the meat industry, Arts University Bournemouth Students' Union aims to provide meat-free food and/or meat-alternatives during meetings and events where food is provided or contracted directly by the Union.

Alongside this, we will label this food to ensure that any allergens are clear, and that those with dietary requirements can easily identify foods to avoid. We will cater to dietary needs as much as possible, bearing in mind any environmental impact of those foods provided and sourced.

This policy has been brought about after feedback from AUB students to the Union and is in line with the Union's 2020-2023 Strategic Plan.
